

EPILEPSY AWARENESS DAY AT DISNEYLAND RESORT

November 6, 2014 Announced as Epilepsy Awareness Day at Disneyland Resort
Join us and bring epilepsy out of the shadows.

March 18, 2014, Anaheim, California: We are pleased to announce November 6, 2014, as the date for the 2014 Epilepsy Awareness Day at Disneyland Resort. Join in and become one of the “purple shirt people” as we enjoy a fabulous day of merriment and fun at the Disneyland Resort. The 2014 Epilepsy Awareness Day at Disneyland Resort honors Mattel Children’s Hospital UCLA, The Chelsea Hutchison Foundation and The Danny Did Foundation.

Building on the great success of last year’s event, we have expanded into a multiple-day Epilepsy Awareness experience. Our kick-off event on November 5, 2014, is an Epilepsy Awareness and Education EXPO at the Fairfield Inn by Marriott (located directly across the street from the Disneyland Resort). From ten in the morning until seven at night, guests will have access to non-profit epilepsy groups, epilepsy support groups, hospitals with epilepsy programs, vendors who service the epilepsy community and a schedule of fantastic speakers including physicians and company representatives.

Generous grants secured by Brainworks Foundation will cover the costs of the EXPO for any non-profit group interested in participating in the event and will allow us to offer the EXPO free of charge to members of the public wishing to attend the EXPO. Additionally, all Partners and Paid Sponsors for EADDL will receive free exhibition booth space at the EXPO.

Our Epilepsy Awareness Experience will conclude with a Picnic on November 7, 2014. One last chance to network with other families who share similar conditions, create memories and build relationships to help bring Epilepsy out of the shadows. More information on the picnic will be provided as the event approaches.

According to Institute of Medicine, 1 in 26 Americans will develop epilepsy over the course of a lifetime, and 65 million people worldwide. For more information on this event, please visit www.epilepsyawarenessday.org.
